TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Temple in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Temple on Tuesday, the fourteenth of March next, at seven-thirty (7:30) o'clock in the afternoon to act on the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise and appropriate such sums of money as may be necessary for Town Officers' Salaries, Town Officers' Expenses, Town Dump, Parks and Playground, Election and Registration, Town Hall and Other Buildings, Flag, Cemeteries, Forest Fires, Civil Defense, Vital Statistics, Legal Expense, Dog Damage, O.A.S.D.I. (Social Security), and for any other charge arising within the Town.

3. To see if the Town will vote to raise and appropriate a sum of money for the purpose of property re-evaluation or take any other action relating thereto.

4. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing a water hole for fire purpose, and/or leasing a pressurized fire hydrant from the N. H. Water Resources Board at the proposed Greenville Water Supply project or take any other action relating thereto.

5. To see what sum of money the Town will vote to raise and appropriate for the maintenance of Summer Highways.

6. To see what sum of money the Town will vote to raise and appropriate for the maintenance of Winter Highways.

7. To see what sum of money the Town will vote to raise and appropriate for Oiling Roads.

8. To see if the Town will vote to accept State Aid for the improvement of Class V roads, and appropriate the sum of $692.52 and the State will contribute $4,616.83.

9. To see what sum of money the Town will vote to raise and appropriate for the support of the Temple Volunteer Fire Department, said sum to be turned over to the Treasurer of the Fire Department.

10. To see what sum of money the Town will vote to raise and appropriate for the purchase of a Radio Monitoring System for the Temple Volunteer Fire Department.

11. To see what sum of money the Town will vote to raise and appropriate for the Salary and Expense of the Police Department.

12. To see if the Town will vote to raise and appropriate a sum of money to replace the Police Department Radios or take any other action relating thereto.

ROAD AGENT'S REPORT

Howard Hill Road was completed from Gove's corner to the foot of Howard Hill. This meant putting in five more culverts, excavating, graveling, and paving.

Cutter Road from Rockwood's corner to Warren Quinn's was widened and graveled. New culverts were put in. This is now an all year road.

Some gravel was put on East Road, North Road, and Old Peterborough Road.

Work was started on Fish Road. It was widened and graveled.

The last section of Hadley Highway to be built was sealed. Approximately two miles of West Road were sealed.

Two new culverts were put in on Old Peterborough Road, and one culvert was put in on Hill's Woods Road.

All the roads were tractor mowed.

These are the major improvements during the past year.

HAROLD N. KULLGREN

MANSFIELD PUBLIC LIBRARY

Circulation of books for the year was as follows: 1,837 juvenile fiction, 332 juvenile non-fiction, 665 adult fiction, and 370 adult non-fiction, making a total of 3,204.

The library purchased 35 juvenile books and 30 adult books and received as gifts 21 juvenile books and 107 adult books. These gift books were donated by the following people: Vivian McGray, Anna Auricchio, Helen Fay-Eleanor Foote, Velma Holt, Flora Rhind, Ruth DeQuoy, Jerry Pearson, the Historical Society, the Charles Randalls and the Hitchcocks. Appleton Academy gave a copy of last years book and magazines were given by the Strattons and Bowens. Theses gifts were much appreciated, and we urge all to help increase our collection in this way.

National Library Week was observed this year by holding a film program at the town hall. At this time the winners of the school contests were announced and presented with their prizes of money. The money for these prizes and other expenses of the program was raised at a summer food sale put on by the Library Trustees. They also served refreshments at this program and for the Open House at the Library that week.

A story hour was again held this summer, in charge of the Girl Scouts.

The new gas furnace has been installed and is working out very well. The new storm windows are also helping to keep the building comfortable.

Library hours remain the same, from 2 — 4 Wednesday afternoon and 7 — 9 Saturday evening. Books may be returned through the book drop at any time.

Respectfully submitted,

PRISCILLA A. WESTON
Librarian

REPORT ON YOUR
MONADNOCK REGION ASSOCIATION

The stated aims of your Monadnock Region Association, now in its 34th year of existence, are as follows: To help the Monadnock Region remain beautiful, to promote worthwhile organizations, to increase the prosperity of its inhabitants, to encourage the development of parks and recreation facilities, and to be of service to all who live, work or visit here.

During the past year your Association has sponsored 4-H activities, Boy Scouts, Boys' State, forestry betterment, Philharmonic Concerts and ham radio groups. We have given slide lectures, talks on Parliamentary procedure, and duties of Town Officers. In cooperation with the National Society we sponsored the First Covered Bridge Festival to be held in New England. We have attended public hearings whenever the interests of the Region or any Town were at stake.

We continue to work for roadside beautification, conservation of resources, and protection of wild life. We publicize historic sites, points of interest and natural attractions. In various ways we have contributed to the development of the Region along cultural and educational lines to the end that such advantages are apparent and a factor in inducing desirable and valuable people to locate in the Monadnock Region.

Your Region Association will tackle any problem advancing the livability of the area of the Monadnocks for natives, visitors or new residents.

REPORT OF THE FIRE ENGINEERS

In the year 1966 we had, one car fire (Dr. Rock) one tractor fire (Barber) three grass and brush fires (W. Mazza, S. Barraclough, Barry) one grass and shed fire (J. Harling) four chimney fires (Dennis, W. Hadley, Salisbury and Davidson) one false alarm (Scott).

During the year your Fire Department received three calls for Mutual Aid Assistance. We called for Mutual Aid Assistance once but sent them back when we found we did not need them.

It is our policy to call Mutual Aid Assistance on any barn fire where other buildings connected or nearby may be endangered. Also on house fires where there is not sufficient water supply. This is why it is important when reporting a fire to state whether it is a barn, house, chimney, vehicle, brush or grass fire.

The radio monitoring system purchased by the Town last year is working very well. Because of this system there are more men going to the fires on the equipment instead of taking their own cars. This is to cut down on traffic congestion at the fire area and also helps to make much faster hookups when the men arrive with the equipment. With an additional 10 units, all active firemen will be notified of a fire simultaneously without need of telephone calls. There is an article in the warrant to cover this.

During the summer months we had several drills with Walter Young, State Fire Training Officer giving the instruction. He is paid by the State Board of Educaton and we find it well worthwhile to take advantage of this program.

Salaries worthwhile ? ? ? ?
Average attendance at drills in 1965 6.6
Average attendance at drills in 1966 12.2
Average attendance at fires in 1966 17.5

DISTRICT FOREST FIRE WARDENS REPORT

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.

2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — instruct your children that matches are not play things.

SUPERINTENDENT'S REPORT

To the School Board and citizens of Temple, I respectfully submit my ninth annual report as your Superintendent of Schools.

Staff and Instruction

Very fortunately only one change in staff was necessary at the Temple School this year. Mr. Eugene Wirkala of Fitchburg, Massachusetts, was hired as principal and teacher of grades 6, 7 and 8, replacing Miss Helen Stone. Mr. Wirkkala has had elementary teaching experience in Nashua and Gardner, Mass. and has a Master's Degree in Education from Fitchburg State College.

Some difficulty was experienced in finding a Noon Lunch operator to handle the program this year, but finally Mrs. Alice Barry of New Ipswich was hired to run the program and Mrs. Gerda Tyler, Chairman of the School Board, agreed to handle the books. The Lunch Program experienced some difficulty in making ends meet financially because of limited surplus foods, but it is hoped that we will end in the black at the end of the year, as we have in the past.

In this year's budget funds were provided for the hiring of a school custodian to replace the student custodial program that had been the pattern in the school for a number of years. It was only recently that Mr. Forrest Rudolph of Temple agreed to perform these important services. It is going to take a little time to switch over from a student custodial organization to a single person custodial operation, but close coordination between the school principal and the custodian are satisfactorily resolving the problems as they develop. It is hoped that as a result of this change in plan, the school will present a more healthful and sanitary condition than has existed in the past.

Now that schools are in satisfactory operation, time has dimmed the anguish that this superintendent and many other superintendents in the state experienced in finding teachers for the current school year. This year the teacher shortage was even more severe than in any year in the past, and it can be expected that the situation is going to become more of a problem with each coming year. This is not a situation which is peculiar to the State of New Hampshire, but is a nation-wide problem.

There are several reasons for the unusual teacher shortage: first, increased elementary and secondary enrollments; second, new educational programs stimulated by Federal financial assistance and local interest that have drawn off a number of teachers; third, migration of teachers to higher salaried positions in industry and also to other nearby states; and fourth, the inability of our state educational training

institutions to accept all those who are interested in going into teaching because of a lack of sufficient facilities. These situations are not going to be immediately resolved.

Temple was quite fortunate in having a full complement of teachers, as were all other towns in the supervisory union, since a report issued by the State Department of Education indicated that as of August 30, 1966, just prior to the opening of school, there were still 158 classrooms that had no teachers. 96 of these vacancies were in the elementary school, 44 in the secondary school and 18 in special classes.

The simplest way to solve this problem is to use every means available to the local district to encourage the present staff to stay in their positions and continue as teachers in the Temple School. One of the best ways of doing this is to try to insure that there will not be a teacher migration into other communities, by providing salaries which meet the competition in the area. Within the budget presented to the district this year fair salary increases are being requested to meet this need.

At just about the middle of the year, unfortunately, Mrs. Nancy Steele (the first grade teacher for the past several years) found that for personal reasons she could not continue in her position and submitted her resignation. As of this date, a substitute, Mrs. Barbara Gregoire of Wilton, has been hired to work with the first and second grade children. It is not determined yet whether she will continue through the month of January or through the remainder of the year.

Building and Grounds

The Temple School building is not in bad condition. Each year a small amount of painting and maintenance is performed so that the general condition of the building remains satisfactory.

The school grounds are very limited in size. This situation has existed for many years and is one which we have gotten used to, but the playing area is really not suited at all for many of the vigorous activities that youngsters would like to participate in. In many cases youngsters go across the road to play on private areas, but these are not much better suited for certain game activities than the school grounds. Unfortunately, it is hard to see how the play area of the school could be improved without a major land moving project which is probably out of the question, but one that should be developed if funds ever become any more readily available than they are at this time.

Finances

There are several areas in the budget where major increases are recommended to the district. These increases have been very thoughtfully discussed and felt to be absolutely necessary for the proper operation of the school. In the area of Teachers' Salaries, an increase of about $2,000 is recommended and is most necessary if the present staff can be hopefully expected to return for another year. In Item #610, Custodian's Salary, an increase of $300 is shown. The amount budgeted in the present budget was merely a guess as to what might be necessary to hire custodial services, but the amount budgeted in the proposed budget seems to be a more realistic figure, in view of the experience which the Board has had in working on this problem. In the #900 series, an increase of $100 in district monies is recommended to insure support for the Noon Lunch Program at the local level, if this is found to be necessary. In #1477.1, an increase of about $2,000 is shown for Tuitions due primarily to increased costs of tuition at the schools in the area. Peterborough's cost per pupil is $726, Appleton Academy's $595, and Wilton's $600. In #1477.3, an increase of about $250 is shown for Supervisory Union expenses. Part of this is for a more appropriate Superintendent's Salary and part of this is for increased salary and expenses in the Supervisory Union office. These increases and other minor increases and decreases result in a Total Appropriation of $56,242., an increase of about $5,000 over the present appropriation.

On the Income side of the ledger, no balance is estimated to be on hand at the end of the school year. Our usual source of a balance is in Tuitions, but there might be a deficit since at the half way point, we have spent about $1,000 more than budgeted. This could mean a $2,000 deficit for the year. In Foundation Aid, since Temple receives a comparatively small amount, it is almost impossible to honestly estimate what amount might be received. This is because of the fact that two factors that affect Foundation Aid will be changed in the coming year. First, the equalized valuation of the town will change from the 1964 figures to the new 1966 figures, and second, the amount of money that the Legislature will raise to support Foundation Aid is unknown and quite unpredictable. In fairness to the community, therefore, it seems that nothing should be budgeted in this area, especially since an indication has been received from the Selectmen that equalized valuations in Temple would rise markedly which would definitely reduce Foundation Aid to the community. Other sources of income remain about the same as they have in the past. The two differences already noted result in a reduction of income of almost $6,000. This, when combined with the increased

appropriation of $5,000, results in a Net Assessment increase to meet the School Board's Budget of almost $11,000. It is agreed that this is a considerable increase, however, most of the increases that are found within the budget are those which are absolutely necessary and should not, in anyway, be altered.

Cooperative School Study

By the time action is taken on the proposed budget, a determination will have been made as to the organizational structure within which the town of Temple will be operating as of July 1968. It seems that the Con-Val Co-op will come into being in some form and thus, Temple will have taken one additional step towards a better educational offering for its children. The more centralized administrative organization is better suited to meet the educational needs of children and has the tax base to easily provide the necessary funds. The most important improvement in the education of children in Temple will be provided by the opportunity for departmentalized education for children in grades seven and eight. This is something that has been talked about at considerable length in Temple, but it now seems that this might very well become a reality for Temple children. A further improvement will occur, since classes in the Temple School will consist of but two grades in a room rather than the three grades in a room situation which occurs in two of the classrooms at the present time.

Temple should be thankful for citizen committee members who devoted much time and effort to this landmark reorganization plan. Temple will be a better town in which to live because of their efforts and because of the results of this reorganization.

Conclusion

I want to compliment the teachers of the Temple School for the job that they have been doing this year in providing for the education of Temple children. Their efforts, along with the efforts of Mrs. Barry and Mr. Rudolph, have helped to provide a school program and atmosphere which insures a good education for Temple children. The local school board has been most understanding of school problems and has worked hard and efficiently to solve them as they developed. The board very fairly has tried to place before the citizens of the town all possible long term solutions to their problem and they have been instrumental in the development of meetings to enlighten the citizens of the community. Certainly, without their help and assistance, the progress of the school would have been severely limited.

As has been the case in Temple for many years, the community has been actively interested in the activities of the school and supported and encouraged its growth and development. This interest and helpfulness certainly has been appreciated by me and has made working with Temple folks much more satisfying and rewarding.
